BIG PROJECT FUR STOCKTON

Honorine and Galena King Working Up Great Undertaking.

DEEP SHAFT AND SMELTER

OWNERS OF BOTH PROPERTIES IN CONFERENCZ.

That big schemes are incubating for the future handling of the Honorine and Galena King properties, at Stock-ton, is evidenced by the news that comes from camp and from what little can be gleaned on this end of the line

FROM THE EAST RONORINE.

Drift Is In Ore. Manager Button of the East Honorine was in from Stockton yesterday,
conferring with officials of the company and to have deeds prepared for
additional ground that is about to be
purchased. He reports the entire face
of the drift now in one, with the
eighteen-ligh streak of high grade
holding out strong. He will return to
camp in a day or two with more men
and push the drift to a connection
with the cross-fissure with all possible
speed. He says there is not a single speed. He says there is not a single idle man in Stockton.

DEEP CREEK SMELTER.

Stock Exchange Closes.

VICTOR AND AJAX.

Both Star Performers at Yesterday's Calls on 'Change.

exchange yesterday than it has been for nearly sixty days. In all 108,467 shares were sold for \$94,606,77. Ajax and Victor secured the lion's share of attention, with the sale of 20,800 shares of the former and no less than 32,800 shares of the latter. That Victor held up so firmly under such heavy selling was a matter that surprised the talent greatly, and was accounted for solely by the remarkably fine showing which the property now presents. It was said that two heavy stockholders, whose combined holdings amounted to about 75,000 shares, were selling out and the steady unloading gaye weight to the statement. It opened at 58c and closed at 54%c.

Mining Notes.

Almost every one interested in pure food and drink is willing to have their name and letter appear in the papers, for such help as it may offer to the human race. However, a request to omit name will be respected.

Every friend of Postum is urged to write and each letter will be heid in high esteem by the company, as an evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose Main and sensible letters continued in the facts desired, although the sender may have but small faith howing. Talk this sepicet over with your friends and hose for on the market yesterday.

Two cars of May Day first-class ore were marketed yesterday.

The Carisa had four cars of ore on the market yesterday.

Two cars of Miners' Dream tRichardson lease) have reached the market from Bingham yesterday.

The Conklin sampling works was yesterday in receipt of four cars of ore from Tintic and one from Oasis.

The lucky holders of Uncle Sam shares were taking down their checks for the recent 3c dividend yesterday.

A. Moffat, superintendent of the Binetallic mill at Granite Mountain, Moat, is down for a short visit at home.

Discovery of a Leading Physician— Public Test Will Be Made in Salt Lake City Today.

All day today free sample packages of the celebrated "Schiffmann's Asthma Cure" will be given away at F. C. Schramm's drug store, corner Main and First South streets. The doctor wants every sufferer from Asthma, Hay Fever or Bronchitis in this city to call and get one. When asked regarding his reasons for giving his remedy away in this manner, he said: "People are naturally skeptical about an asthma remedy, and when you consider the number of so-called cures' on the market, you can hardly blame them. Now I claim that my Cure cures. If will instantly relieve the most violent attack. It has permanently cured thousands who had been considered incurable. If I did not believe it, why should I be giving it away? The sufferer who gets a sample package can tell in two minutes whether it is as I represent it, and it does not cost him a cent. That is fair, isn't it?"

It certainly does not look as if anything could be fairer. Those living out of town can get a free sample by writing and enclosing a 2-c. at stamp to Dr. R. Schiffmann. 370 Jackeyn street. St. Faull. Minn. up to Sept. 23d, not later.

FINANCIAL NEWS

New York Stock Market Experi-· ences a Recovery.

PRICES NOTABLY BUOYANT

HEAVY BUYING WITHOUT NEWS TO EXPLAIN IT.

New York, Sept. 18.—People who argued that the sudden weakness that developed in the stock market yesterday afternoon after the early show of strength was due to the frost scare in the corn belt, found confirmation for their views in the recovery in the stock market today simultaneously with the reaction in corn. The loss of all yesterday's rise in the price of corn showed an eagerness to realize on long lines that took the edge off the apprehension regarding the reported further damage to the corn crop. The effect of this development was naturally most pronounced in the stocks of the great western railroads, whose traffic is large in corn, namely, the grangers and Pacifics, including Atchison and Missouri Pacific.

But there was no reason why the developments in the corn market should have a sympathetic effect on railroads in southern territory, those carrying anthracite and bituminous coal and the network of central traffic and minor eastern trunk lines, which are usually designated as Junior Vanderbilts. Prices of all of those stocks were notably buoyant, and the buying of them was on a scale which could only be for the account of the largest of the local interests.

Buying was without any specific news to explain it. It was attributed to the same sources as that which constituted the determined support of the market all through the recent crisis. The public in Wall street was strong in the conviction that what are called the Vanacrolit, Morgan, Gould, Rockefeller and Harriman interests were all buyers on a very large scale, of the various stocks, in which tney are interested.

Speculators and professional operators exhausted the best powers of conjecture in striving to discover the molecular of the market has a conjecture in striving to discover the molecular of the market has a conjecture in striving to discover the molecular of the market has a conjecture in striving to discover the molecular of the local traffic and professional operators exhausted the best powers of conjecture in striving to discover th

making very large trades on both sides of the market and almost simultaneously.

The persistent weakness of Amalgamated Copper, which fell another 3½ points today, still further confused sentiment. When that stock made a vigorous rally of 2½, the effect of the buying elsewhere became emphasized and prices rose buoyantly throughout the list to the top level of the day. Southern Railway was easily the feature, and nearly all the transactions in the stock during the last hour were in 1,000 to 5,000-share lots. The price rose two points, and an extended additional list of the Morgan railroads advanced from one to two points. Hocking Valley gained 5½. The Vanderblit grown including New York. Chetral, the New York, Chicago & St. Louis, the New York, Chicago & St. Louis, Peoria & Eastern and Lake Erie & Western rose from ½ to 7½, giving rise to confident predictions of an early announcement of a comprehensive plan of mergan for all the Vanderbilts. The rise of 4½ in Sugar was due to the stock's subscription rights declared by the stock-holders today.

Conditions in the money market were trangul under the influence of continued large outgo from the sub-treasury to the money market.

Speculative bonds were active and strang, but there was some irregularity among less active issues. Total sales, \$2,095,000. United States refunding 2s advanced ½ per cent on the last call.

LIVESTOCK MARKETS.

Rheumatism is due to an excess of acid in the blood. When this escapes through the pores of the skin, as it often does, it produces some form of skin eruption—some itching disease like Eczema or Tetter—but when these little tubes or sweat glands are suddenly closed by exposure to cold and sudden chilling of the body, then the poisons thrown off by the blood, finding no outlet, settle in membranes, muscles, tissues and nerves. These parts become greatly inflamed, feverish and hot; dagger-like, maddening pains follow in quick succession, the muscles become extremely tender, the nerves break down and the sufferer is soon reduced to a state of helplessness and misery. This acid poison penetrates the joints and seems to dry out the natural oils, and the legs, arms and fingers become so stiff and sore that every movement is attended with excruciating pains.

Liniments, plasters, electricity and baths, while their use may give temporary ease, cannot be called cures, for the disease returns with every change of the weather.

S. S. C. cures Rheumatism by "Three years ago I had a severe attack of | working a complete change in

H. V. Croll, Local Manager.

"Three years ago I had a severe attack of la grippe, which left me almost a physical wreck. To add to my wretched condition, a severe form of Rheumatism developed. I tried all the physicians in our city, but none of them could do me any permanent good. I used all the rheumatic cures I could hear of, but received no benefit. After beginning S. S. S. I was relieved of the pains and have gained in flesh and strength and my general health is better than for years. I consider S. S. S. the grandest blood medicine in the world, and heartly recommend it to any one seeking relief from the tortures of Rheumatism so form, is the basis of nearly all to ruinous habits. Alkalies and the potash and mineral remedies so often prescribed, affect the tender lining of the stomach and weaken the digestion, thus adding another burden to the already weak and impoverished blood. S. S. S. constains no mineral or dangerous drug of any kind, but is a simple, vegetable remedy and the most perfect blood purifier known. Send for our book on Rheumatism and write our physicians if you wish any information or advice. We would be glad to mail you a book free; we charge nothing whatever for medical advice.
